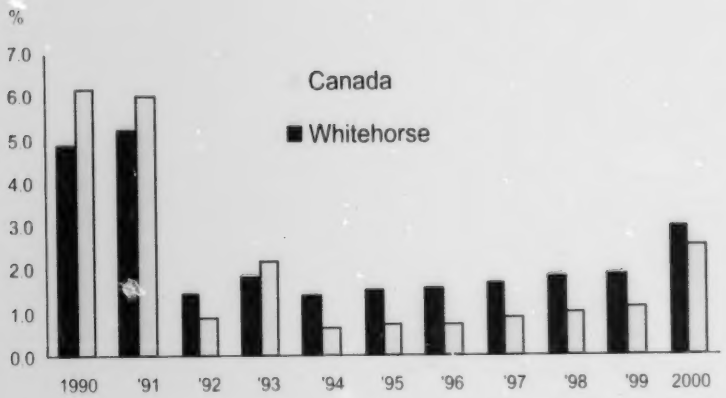
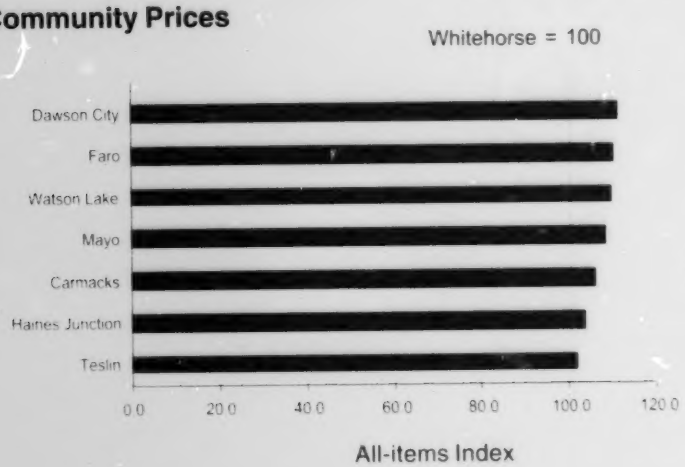
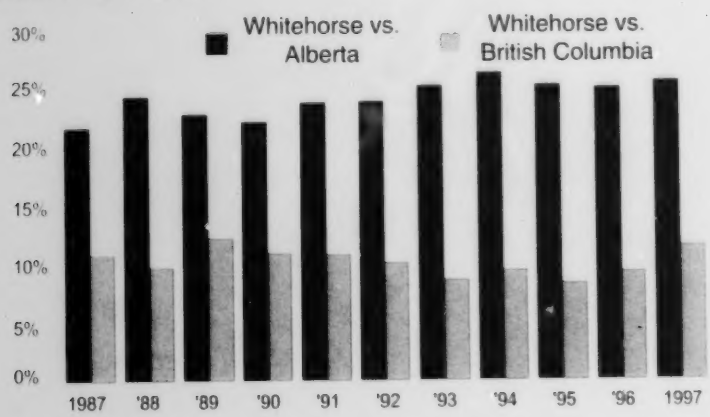
Inflation



Community Prices



Spatial Price Index



This table shows the percentage by which Whitehorse prices are higher than Alberta and British Columbia prices.

HIGHLIGHTS

- From 1990 to 2000, Whitehorse's inflation rate fluctuated from a high of 6.6% in 1991 to a low of 0.9% in 1992. The Whitehorse inflation rate was lower than the all-Canada rate for 1992, and from 1994-2000. In 1990, 1991 and 1993 the Whitehorse rate was higher than the national rate. The 2000 inflation rate was 2.5% for Whitehorse and 3.0% for Canada.

See page 33 for detailed data.

- In October 2001, prices for all items were highest in Dawson City (at 111.5) and lowest in Whitehorse (at 100.0). Teslin's prices were closest to Whitehorse's (at 101.9).

See page 37 for detailed data.

- Prices in Whitehorse are much closer to prices in British Columbia than they are to prices in Alberta. Over the past ten years, Whitehorse prices have been 24.3 percent (on average) more expensive than prices in Alberta. They have only been 10.2 percent more expensive than British Columbia for the same period.

See page 38 for detailed data.

HIGHLIGHTS

- In 2000, the Yukon's average rate of unemployment was 11.5%, with the highest monthly rate (13.5%) in December. In 1999, the Yukon's unemployment rate peaked at 16.7% in March and averaged 13.1% for the year.

See page 36 for detailed data.

- Total government employment in 2000 averaged 4,809 in the Yukon. Of this number, 823 worked for the federal government, 3,263 for the territorial government, 259 for territorial Health and Social Services and 464 for municipal governments. The preliminary 2001 figure represents a 1.4% increase from 1999, when there was a total of 4,744 employees.

See page 34 for detailed data.

- Average weekly earnings in the Yukon in 2000 were $743.17 (including overtime). In 1999 the average was $731.70. This is an increase of $11.47, or 1.6%. The industry group with the highest earnings (not shown) is Public Administration at $1,092.24 per week.

See page 20 for detailed data.

- In 2000, the average number of claimants on claim was 1,770. In 1999, the average was 1,909, a decrease of 7.3%. The decrease in the Yukon was greater than the decrease in Canada (-6.0%).

Table Guide

Statistics presented in each table of the Review provide a monthly, quarterly and annual summary of information. When monthly data are available, statistics are displayed for the preceding fifteen months. The latest twelve months are highlighted.

Quarterly data are located immediately below the monthly figures. In general, quarterly data are either the average of the monthly statistics or, as appropriate, the sum of monthly data. Quarterly statistics cover an approximate four-month period. The latest quarters are highlighted.

At the bottom of the table annual figures are displayed. Depending on the statistics presented, annual data may be either the average or the sum of monthly data. The previous eight years of data are presented, with the latest year highlighted.

Below the annual data the source of the data and, as appropriate, notes regarding the table are detailed.

Notes : For 1994 and earlier the column "Porter Creek" includes both Hillcrest apartments and Porter Creek apartments. Starting in March, 1995 Hillcrest and Porter Creek apartments are reported separately as well as Granger apartments. (They were not reported previously but were included in the calculation of the figures in the "Whitehorse Total" column.) Takhini became part of the rental survey in the third quarter of 2000.

Retail estimates exclude the Goods and Services Tax (GST). Quarterly and annual figures may not correspond with table 8.1, due to rounding.

* Includes sales other than those listed.

Note:

The establishment of Nunavut has impacted the level of detail available for Yukon retail sales figures. As of the first quarter of 1999 Statistics Canada is no longer releasing the quarterly data on the sale of "Recreational and Motor Vehicles" in the Yukon. Statistics Canada's policy on confidentiality limits not only the smallest grouping that can be reported, but also requires further suppression to prevent "residual disclosure." Because Nunavut's numbers cannot be released due to confidentiality restrictions, and because Yukon has the second-lowest number of business establishments in this classification, under this policy Yukon's numbers must also be suppressed. The Yukon Bureau of Statistics is in contact with Statistics Canada to resolve this situation.

Source: Statistics Canada CANSIM II: Table 405-0004, no. 2747. CANSIM I series were terminated with the 1998 data; present data may not be compared with previous data.

Note: Passenger vehicles, light trucks and SUVs weigh less than 4,500 kg; vehicles between 4,500 and 14,999 kg would include larger utility vehicles, but not those typically used on a farm; vehicles over 15,000 would include semi-trailers and cement trucks; snow machines are included in the "off-road, construction, farm vehicles" category. Passenger automobiles include taxis and rental vehicles. "In force" means all motor vehicle registrations that were valid in the calendar year. Total "In force" road registrations includes other registrations than those listed.
